

Discharge/Guide Prototype walkthrough

Oct 17th, 2023, David Applebee

This prototype consists of three flows for two selected facilities.

Our starting point is on Discharge refer screen.

“Launch Guide” will be your focus point. Click this button to enter guide modal.

First, you will be greeted with screen already with a search provided.

Insurance Payor, Services, and Post-Acute care networks can be selected to showcase some more depth.

Payor - Select for dropdown and select again to close.

Services - Select for dropdown and click outside of area to close.

Networks – Select for dropdown and select again to close.

Click “Add 2 to cart” button to bring out cart side modal.

From here you can select for Share, Print, Add to referral. Each having own flow. Note the modal is scrollable with “Return to discharge” returning you to the first page.

Within our cart modal:

Share – Select blue share button. This will bring up a pop-up modal for sharing results. For simplicity select either email text field or your name. This will auto populate the form.

Once information is provided you can click share selected results button. Confirmation modal will appear and select close and return to discharge to exit modal to refer screen.

At any point you can access the modal by selecting launch guide.

Print – Select Print from cart modal you will be prompted with a modal for printing. Like Share workflow select “YOUR NAME” field to auto populate the form.

Select “Print” and a second screen will appear that will have the documents showcased. This screen only allows you to view and not download the file.

To return top guide modal select top left tabs to return. With a modal confirmation that will take you to the refer screen.

TIP: At any point you become lost during navigation simply click a portion of the screen blue highlights will appear in areas that are clickable to get you back on track.

Add to referral – Once you select this from the cart modal you can view a confirmation modal. This will take you to refer screen as well.

Connect screen can be accessed from Refer screen by clicking tabs located on refer screen.

Thus concludes our journey. Thank you!

Additional functionalities-

Care One At Brookline – Select blue colored font. Facility is clickable to view a simple information page. This page is non-animatable meaning like print flow you must click the tabs in the top left to return.

Check marks – Are clickable but do not interfere with the workflow.
