## EXPERIENCE

### UX CABIN | Product Design Intern | Sep, 2021 - Dec, 2021

- Shadowed Senior Designers on real client projects
- Exhibited working knowledge in user interface design, user experience design, and user research
- Conducted user research, design sprints, and individual projects
- Implemented best design practices and methods
- Conducted user testing, surveys, usability tests
- Successfully conducted full design sprint with intern team and 2 individual projects

### TWG | UX/UI Design Intern | Jan, 2021 - May, 2021

- Implemented psychology methods toward user understanding and research
- Used Figma to create low-fi and hi-fi prototypes for multiple projects
- Utilized creative abilities to build up captivating design aspects of a new platform idea pitched by the CEO
- Communicated effectively with team members in daily meetings to collaborate ideas and receive feedback
- Responsible for assigning tasks to the team to complete deadlines in a timely manner
- Worked with front end and back end development teams laying necessary groundwork for future teams success

### CLEVELAND CLINIC | EMG Technologists | Oct, 2020 - Jan, 2021

- Examined results of conduction studies to diagnose nerve disorders presented with imaging
- Performed 25-30 nerve conduction studies weekly while maintaining standard lab protocols
- Effectively communicated with patients to confirm appointments and write reports

### CLEVELAND CLINIC | Pathology Technician | Jan, 2019 - Oct, 2020

- Oversaw patient tissue was properly handled and distributed to corresponding doctors in a timely manner
- Responsible for effective workflow throughout the lab and volunteered to help after hours to ensure completion of daily quotas
- Demonstrated strong problem solving skills and worked with a team of coordinators to reduce incidents in the lab
